

HOW WE'RE MOVING YOU SAFELY DURING COVID-19

Daryl Flood Relocation & Logistics understands the unique situation you are in. We view safety as a top priority, and that includes the health and well-being of our customers.

Our team members, including drivers and crews, are being updated regularly on health and safety best practices as outlined by the CDC and WHO, and putting them into immediate action.

OFFERING VIRTUAL SURVEYS

Our safe and accurate virtual survey solution allows you to get a local, interstate or international move estimate without anyone coming into your home. **Using your mobile device or tablet, you'll take the Daryl Flood representative on a virtual tour of your home, showing the items that need to be included.**

PROVIDING CLEAN BOXES & PACKING SUPPLIES

In an effort to maintain a safe, germ-free environment, our crews are bringing in fresh boxes and supplies for customers who have requested full or partial packing services.

ADHERING TO HAND WASHING GUIDELINES

During the move process, our team will keep to regular hand washing routines while in your home and handling your belongings. **As an added layer of caution, we ask that you take the time to disinfect commonly touched areas, such as doorknobs and furniture surfaces.**

FOLLOWING SOCIAL DISTANCING PROTOCOL

Since the CDC is recommending social distancing, please designate one person from your family (at least 18 years of age) to supervise the move. **Our crews will be able to take direction from that individual while maintaining the recommended 6-foot safe distance.**

HELP YOUR COMMUNITY: **DONATE FOOD & ITEMS TO OTHERS IN NEED**

Our communities are relying on generous donations to help those in need! While packing, we encourage you to set aside any unwanted household items and non-perishable food for donation. Our movers can donate the food items on behalf of your family through our partner, Move for Hunger.
